

Building Tables Part II

1 Controlling The Column Width of Tables

1.1 Using tabularx Package

Table 1: Table with Up Top Caption.

Item	Price	Quantity
No.1	150	4
No.2	130	5
No.3	140	6

1.2 Using the array Package

First Aligned Item	Second Item	$2^x + 3^y$
--------------------------	----------------	-------------

2 Sideways Content

2.1 Rotated Table Cells

Item	Long Entry	Very Long Entry
10	20	30

2.2 Rotating an Entire Table

Item	Price	Quantity
No.1	150	4
No.2	130	5
No.3	140	6

2.3 Rotated Table in Landscape Mode

Table 2: A Table in Landscape Mode

Item	Quantity	Price[K]	Depreciation	Salvage Value	Useful LifeTime
1	15	150	5000	20	5
2	20	170	4000	15	10
3	35	140	7000	40	5
4	40	120	8000	30	15
5	45	130	3000	70	10

3 Wrapping Tables by Text

As any dedicated reader can clearly see, the Ideal of practical reason is a representation of, as far as I know, the things in themselves; as I have shown elsewhere, the phenomena should only be used as a canon for our understanding. The paralogisms of practical reason are what first give rise to the architectonic of practical

reason. As will easily be shown in the next section, reason would thereby be made to contradict, in view of these considerations, the Ideal of practical reason, yet the manifold depends on the phenomena. Necessity depends on, when thus treated as the practical employment of the never-ending regress in the series of empirical conditions, time. Human reason depends on our sense perceptions, by means of analytic unity. There can be no doubt that the objects in space and time are what first give rise to human reason.

Table 3: Table Wrapped by Text

Item	Price	Quantity
No.1	150	4
No.2	130	5
No.3	140	6
