

Building Tables Part V

1 Footnotes in the tabular Environment

1.1 First Case: using footnote mark and text commands

A	B ¹
C	D

1.2 Second Case: using footnote cmd with minipage

A ^a	B
C	D ^b

^aMultiple footnote commands are allowed for a tabular inside a minipage.

^bAnother footnote.

1.3 Third Case: when wrapped in a float

A	B ²
C	D ³

¹For the standalone tabular env. only one footnote is allowed.

²Footnote text command must be outside the float environment.

³Second footnote in the same table.

2 Footnotes in the tabularx Environment

2.1 footnote cmd in Standalone tabularx

Item	Price	Quantity
No.1	150	4 ¹
No.2	130	5
No.3	140	6

2.2 tabularx Inside table Float

Item	Price	Quantity
No.1	150	4 ²
No.2	130	5
No.3	140	6

2.3 tabularx and parnotes Package

Item	Price	Quantity
No.1	150	4 ⁱ
No.2	130	5 ⁱⁱ
No.3	140	6

ⁱ This is a parnote!
ⁱⁱ Yet another parnote!

¹tabularx Standalone Footnote

²This is a footnote for a tabularx inside table float.

3 Footnotes for Multipage Tables

3.1 Inside longtable

You can directly use the *footnote* command after any entry in this environment.

3.2 For the supertabulars

Table 1: SuperTabular Above Caption.

Counter	Data	Data	Data	Data
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4 ^a
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4 ⁱ
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4

^aSupertabular Footnote

Counter	Data	Data	Data	Data
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4
Item	1	2	3	4

ⁱ A parnote inside supertabular
